

Streetcar and You

When streetcars arrive on the H/Benning corridor for testing later this fall, it will be even more important than usual for local drivers and delivery trucks to obey the rules of the road.

- **DO** park inside designated parking spaces and obey all traffic rules
- **DON'T** mimic this van in Portland:

DC parking enforcement and tow trucks will be dispatched to clear the Right-of-Way if a vehicle is obstructing the path of the streetcar. Always park inside the lines to avoid being towed!

- **DO** park in legal parking spaces.
- **DON'T** double-park! Running in for takeout with your flashers on isn't worth a citation or a towed car.
- **DO** use marked delivery zones, if you're a delivery truck.
- **DON'T** pull into the path of the streetcar.
